Notes :

1. This curriculum plan is applicable to students enrolled in year 2022(not applicable to transfer-in students).
2. To satisfy the requirements for the program, students must complete a total of 128 credits which consist of University courses, Business School courses, department core courses, and a full set of the department elective courses from one of the two streams. The remaining credits can be chosen from other elective courses or any discipline area within the University.
3. Except for the requirements above, students also need to fulfill professional competence requirement. For details, please see the “Guidelines of Department of Accounting and Information Systems for the Implementation of Professional Competence Test”.
